

# Pharmaceutical Needs Assessment

*Appendix D  
Non NHS Services*

Croydon Community pharmacy contractors may provide a range of services directly to their customers, which are not commissioned by NHSE, the LA, the CCG or other NHS Services. These are referred to as Non-NHS services within the PNA.

The Table below provides a flavour of these non-NHS services, although the scope of the service offered varies from pharmacy to pharmacy. Customers may be required to pay for some of these services; however, others may be provided 'free of charge' as a value added service.
